Jal Jeevan Mission

5 YEARS OF JAL JEEVAN MISSION

“

...I declare from the Red Fort today that in the days to come, we will take forward the **Jal Jeevan Mission**. The central and the state governments will jointly work on this Jal Jeevan Mission. We have promised to spend more than **Rs. 3,500 Billion** on this mission in the coming years...

(Prime Minister's address on 73rd Independence Day,
i.e. 15th August, 2019 from the ramparts of Red Fort, New Delhi)

”

The reason for the success of
Jal Jeevan Mission
is its four strong pillars

Political Will

Public Finance

People's Participation

Partnership

“ *Let us work together to provide safe drinking water to every household and thus achieve drinking water security for our future generation.* ”

Universalization of Water and Sanitation Services

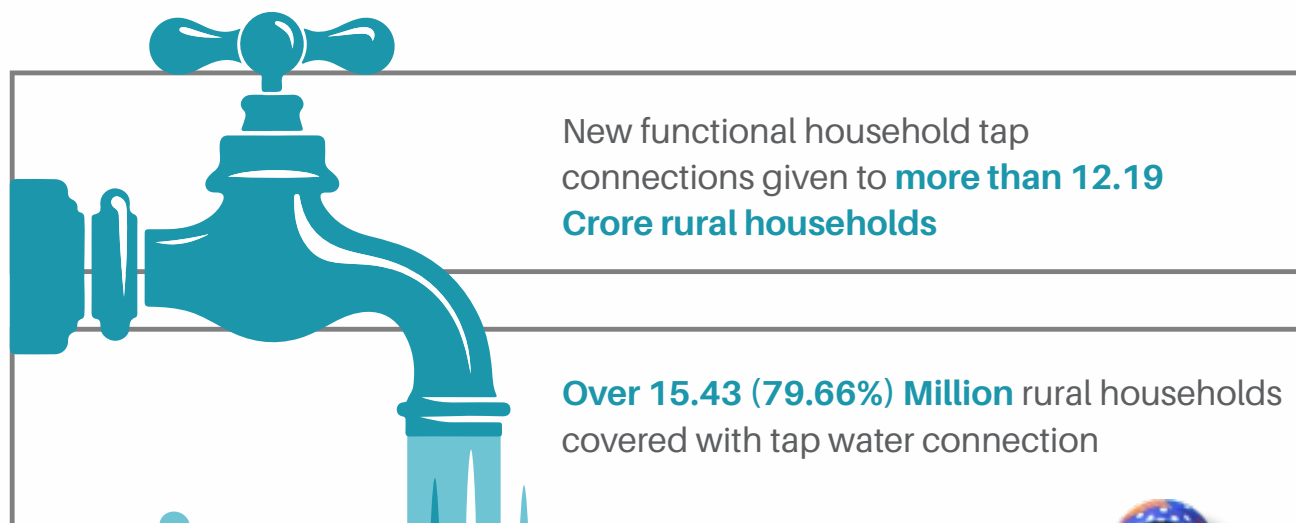

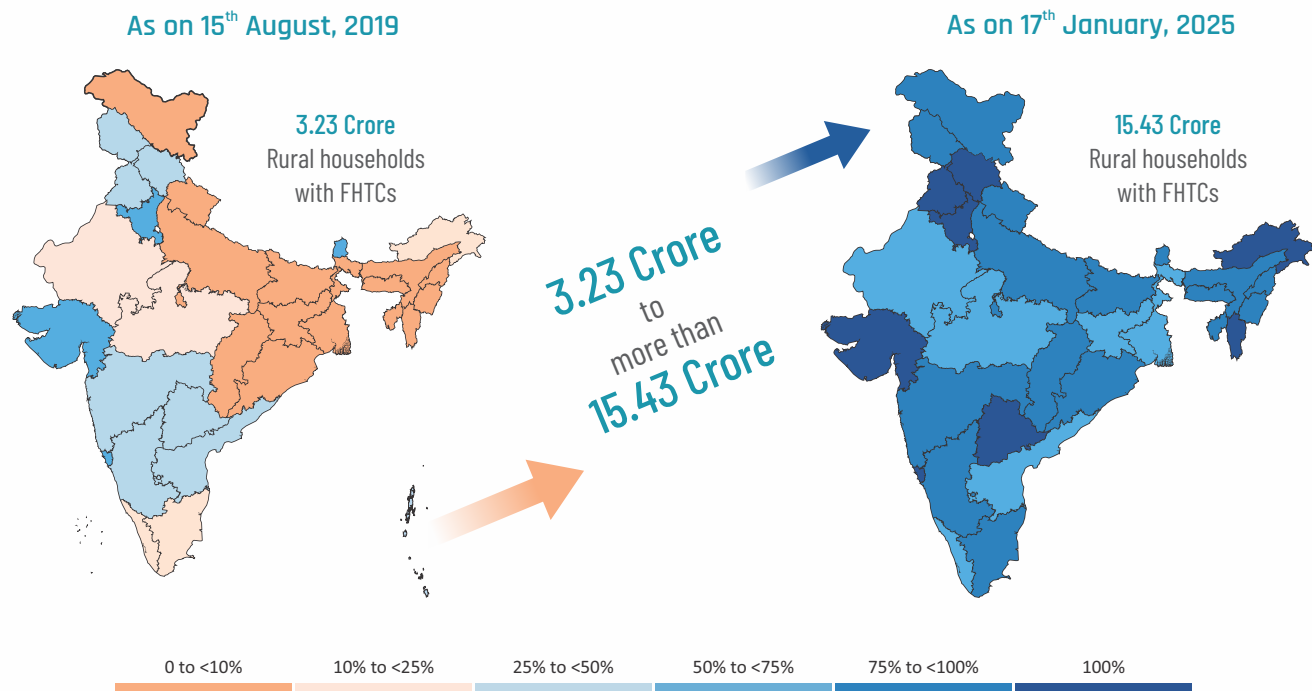

Vision

Every rural household has drinking water supply in adequate quantity of prescribed quality on regular and long-term basis at affordable service delivery charges leading to improvement in living standards of rural communities.

Achievements under JJM

With speed & scale

100% coverage in 8 States – Arunachal Pradesh, Gujarat, Telangana, Goa, Haryana, Mizoram, Himachal Pradesh and Punjab

100% coverage in 3 Union Territories - Andaman & Nicobar Islands, Daman Diu & Dadra Nagar Haveli and Puducherry

100% coverage in **189 districts, 1,862 blocks**, and over **2.52 lakh villages**

78.30% coverage in **112 aspirational districts** and **15 aspirational districts** reported Har Ghar Jal

80% to <100% coverage in 15 States/ UTs - Tamil Nadu, Maharashtra, Nagaland, Sikkim, Uttarakhand, Ladakh, Bihar, Lakshadweep, Uttar Pradesh, Tripura, Meghalaya, Assam, Karnataka, Jammu & Kashmir and Chhattisgarh

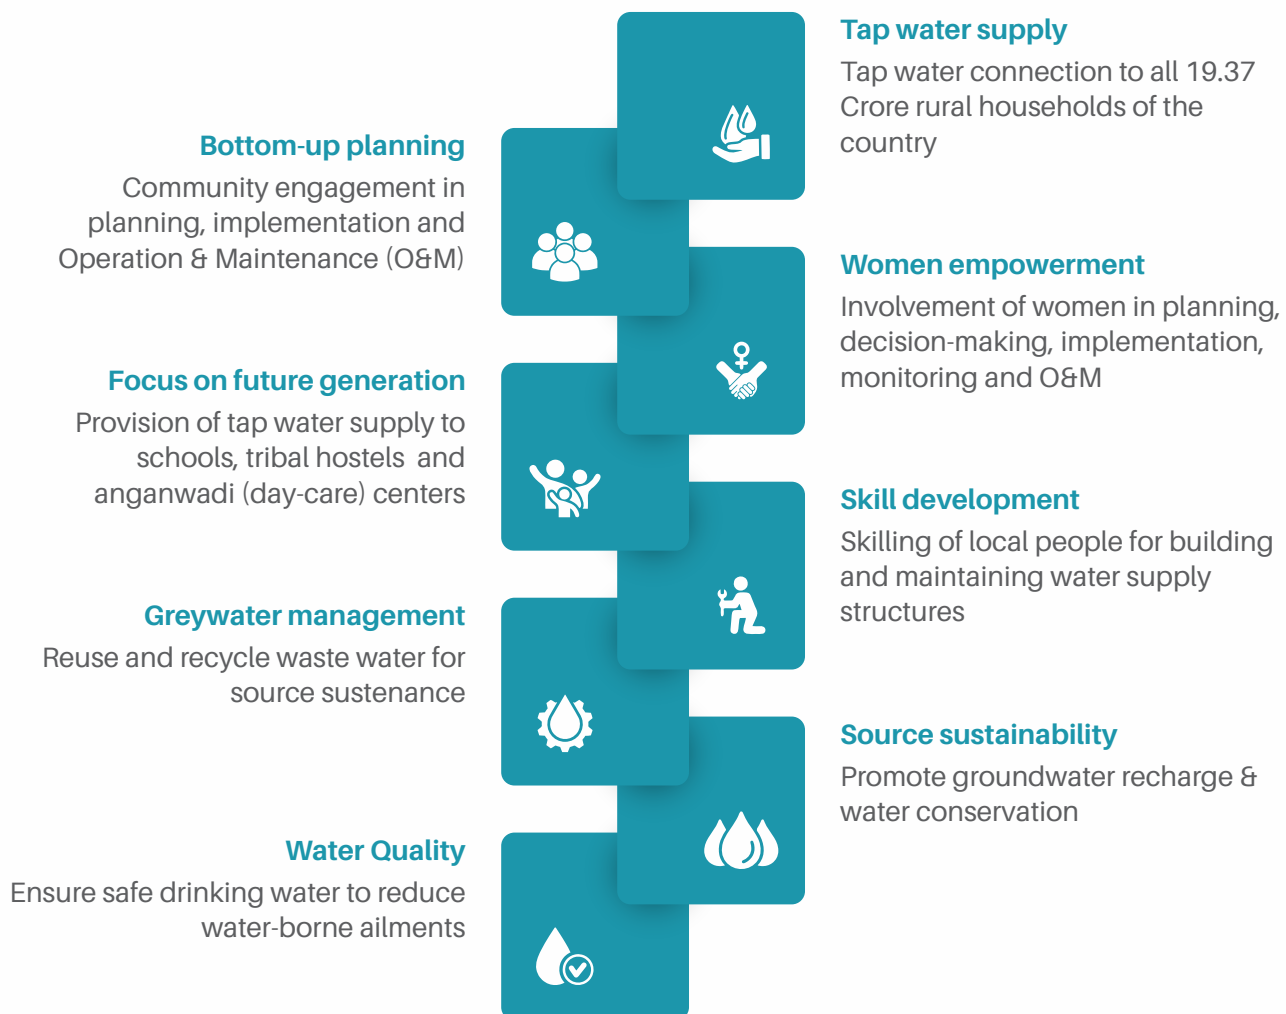

75% to <80% coverage in 2 States/ UTs - Odisha, and Manipur

50% to <75% coverage in 6 States - Jharkhand, Kerala, Madhya Pradesh, Andhra Pradesh, West Bengal and Rajasthan

Components of Jal Jeevan Mission

Allocated Budget

Under this Mission more than Rs. 3.6 lakh Crore with additional Rs. 1.42 lakh Crore grant to rural local bodies/ panchayati raj institutions for water supply and sanitation through 15th Finance Commission tied grants have been allocated in 5 years.

Paradigm Shift

Reform in Drinking Water

	Then	Now
	Pre 2019	Post 2019
Availability	Habitation Level: habitation level to enable people to get potable water.	Household Level: provision of tap water is being made till household level in adequate quantity of prescribed quality on regular and long-term basis.
Quantity	Variable 40-55 LPCD	Minimum 55 LPCD
Quality infra	Very less no. of WQ labs	Network of 2,162 water quality labs established
Women Participation	No mandatory participation of women at village level	>50% women led Pani Samitis/ VWSCs at community level for better management
Source Sustainability	Limited focus	Focus from planning stage with specific emphasis on recharge of Ground Water for PWS sources
Skilling for O&M	Entrusted with Panchayat level	Policy decision for skilled manpower under Nal Jal Mitra Programme (NJMP) User Charges Accounting

Jal Jeevan Mission Milestone

Before JJM

3.23 Crore

Households with
tap water connections
as on 15th August, 2019

Sep
2023

13 Crore

May
2023

12 Crore

Jan
2023

11 Crore

Launch of Jal Jeevan Mission

15th August, 2019

by Hon'ble Prime Minister
Shri Narendra Modi

March
2021

7 Crore

World's largest programme for providing potable drinking water to every rural household of the country

Impacts of Jal Jeevan Mission

Equity and Inclusiveness

Inclusiveness: The mission recognizes the need for a targeted approach to address the needs of vulnerable groups like Scheduled Tribes, Scheduled Castes, and geographically disadvantaged areas

Gender Equality: Focus on Women's Leadership-Jal Jeevan Mission recognizes the crucial role women play in managing water resources at the household level

Freedom from Drudgery

5.5 Crore hours saved daily from fetching water (75% women)

Contributing in Well-being

As per Study by Development Innovation Lab of Chicago University, nearly 30% infant deaths can be reduced if safe water is made available to families for drinking

1.36 lakh deaths per annum pertaining to children below 5 years can be prevented in India with provision of safe water

JJM may prevent 4 lakh diarrheal deaths - As per WHO report

Generating Employment Opportunities

As per study conducted by IIM Bangalore and ILO on 'Assessment of Employment Potential of Jal Jeevan Mission'

JJM has potential to generate 59.9 lakh person-years of direct and 2.22 Crore person-years of indirect employment

13.3 lakh additional direct employment annually during O&M Stage

SBI Research: 8.3% point decline in percentage of household fetching water from outside

7.4% point increase in women's participation in agriculture & allied activities

Water Quality Interventions

Network of Water Quality Labs

State Laboratories	40		1,146	Sub Division Laboratories
District Laboratories	678		69	Mobile Laboratories
Block Laboratories	206		2,162	Total Laboratories

Safe drinking water provided to all 14,020 arsenic and 7,996 fluoride affected habitations (100%) in the country

Online portal on Water Quality Management Information System (WQMIS) developed for monitoring of water quality

More than 2,162 laboratories include 1,573 National Accreditation Board for Testing and Calibration Laboratories (NABL) accredited labs at various levels established in States/ UTs

Field Test Kit: Women in Lead role

Improving public health

Reducing water-borne diseases

Benefitting entire rural population, especially vulnerable groups like women and children

In every village, at least five women are being trained on various aspects of potable water and use of Field Test Kits (FTKs) to test quality of water supplied, conduct sanitary surveys, and upload the data on JJM portal.

More than

24.80 lakh

women in over 5070 thousand villages, trained for testing water samples using Field testing kit (FTK)
